Temples and forts transferred to the Centre. 1885.

Resolution *re*—

Adoption of Socialistic pattern of Economic Policy in Agricultural and Industrial Schemes. 1832-33.

SPEAKER, Mr. (Sri H. S. RUDRAPPA)—

Observation(s)—

Adjournment Motion—

An —— is inadmissible for want of urgency though it may be a matter of great public importance since ordinary parliament opportunity will occur shortly or in time. 75.
Telephone is no doubt a Central subject. But the difficulties experienced by the people of the State would be a matter which could be legitimately canvassed in the State Legislature. A suitable motion for this purpose may be tabled and the —— withdrawn. 1181-1182.

Bill(s)—

Any member of the Select Committee can present the Report. 2448.

Hon'ble Member cannot bring an amendment to the original section which is not in the amending ——. 2163.

Honourable Member can only speak on the provisions of an amending ——, and not on the provisions of the original Act. All relevant provisions in the original Act can be referred to. 2084, 2086.

Members must be in a position to know while giving their support what the financial implication of any financial —— will be. 210.

The argument either for or against the inclusion of a clause in a ——can be taken up after the consideration stage. 1904.

Whether provisions of a ——are necessary or not may be gone through and discussed instead of going through the previous history of the original enactment. 1744.

Hon'ble Members who have not tabled cut motions may speak on the main Demand, but if the members who have tabled cut motions, have any local grievances, one or two minutes may be given to them. 1184.

Though the Hon'ble Member who has tabled the cut motion is allowed to move and speak about the cut motion, other members also should have an opportunity to speak in favour or against that cut motion. 910.

Demands for Excess Grants—

The Members will make only observations with regard to the amount spent and why it was not regularised then in connection with ——. 1684.

General--

Always members belonging to the ruling party must take less time. 2461.

Any delay ia laying the rules made under the Motor Vehicles Act, 1939 on the Table of the House would amount to a serious curtailment of the rights of the members of the House and the Government should therefore follow the provisions of the Act more strictly in future. Any amendments to these Rules may be placed before the House and then time will be allotted for the discussion of those amendments. Otherwise, it will be taken that the House will have approved the rules as a whole. 21.

Government can take shelter under the plea that they cannot disclose matters in public interest, but the Chair will see how far it is not advisable to disclose the information in public interest. 933.

Government only can be held responsible for whatever an officer does or does not, because they will be in a position to defend themselves but not the officer. The Officer concerned need not be brought before the House. The Minister concerned can be held responsible for whatever he does. 914.

If the Hon'ble Members want to ask any questions, they may ask them after the speech is concluded. They can ask for

any information required by them with the permission of the Chair. The Members cannot rise all of a sudden and retort. These things should be avoided when the speech is going on. 2506.

Interruptions are allowed only to help Hon'ble Members to make their speeches. But if there is a continuous interruption, neither the Hon'ble Member who will be on his legs can make a continuous speech, nor the Hon'ble Minister will be able to clarify the issues. It is only after the Hon'ble Member closes his speech that information may be sought for. 334, 335.

No running commentary is necessary inside the House. 2507.

Rules do not permit to allow a member to continue his speech if he is absent when discussion commences after an interval. 1994.

Sometimes interjections and interruptions help the debate. Even petty jokes are allowed, but not to the extent of interrupting the continuity of speech. 1729.

The Legislature cannot discuss a report that is circulated by an outside body. 2268.

The organisation of parties and the working of the party machinery are beyond the purview of the Speaker. Unless the Leader of the House and the Leader of the Opposition can claim, and can be deemed to speak for their parties, the work of the House is likely to be hampered and it will not help in the smooth working of the Assembly. 1295.

The scope of discussion is limited only to the omissions and commissions of the State Government and also of the administration within the control of the Government. 795.

The Speeches of Hon'ble Members must be strictly relevant to the matter at issue. Members need not elaborate on a point referred to by the Hon'ble Minister incidentally. 2064.

When a categorical statement is made by Government about any facts relating to administration or within their responsibility it should not be lightly rejected but should be accepted. 644.

Without the permission of the Speaker no members should intervene and reply. 2567.

Joint Select Committee—

Hon'ble Member who is a party to the Report of the —— cannot argue crossways when he has not sent any note of dissent or objection. 133.

Question (s)—

A member cannot put his —— unless he is in his seat. 315.

A —- which has been answersd once cannot be answered again. 1722.

Hon'ble Members must get some answers during —— hour and utilise those answers on some other occasions to redress the wrongs. 467.

If an Hon'ble Member wants to refute an answer given to a ——, question hour cannot be utilised for that. 2076.

If the Government say that they cannot give information in the public interest, the Hon'ble Member must take it as the answer. 316.

—— regarding merits of cases of sabotage cannot be asked and answered. 1659.

The Department cannot furnish a wrong answer to a —— to the House. 2606.

The whole policy of the Government cannot be discussed during —— hour. 225.

Select Committee—

Members of a —— have got a right to change their views. The recommendations of the Select Committee are not binding on the House. It may not be proper, but it is not illegal for a member of the Select Committee to speak as he likes. 141.

Members must confine their remarks to the Report of the——. 153.

Ruling (s)—

Adjournment Motion—

Adjournment Motion *re*— strike in the Kolar Gold Mines is ruled out of order on the ground that strikes and lockouts cannot be proper subject of ——. 2406.

—— *re*— adverse effect of incidence of Sales-Tax on agricultural produce is ruled out of order on the ground that a question of very wide scope which would demand legislation to deal with it in any effective manner should not be the subject of discussion. 2082.

The —— relating to mass evictions of tenants in Shimoga District is ruled out of order on the ground that there is nothing to indicate when this 'emergency', if any, arose, what is the extent of evictions and how the matter is of public importance. 75.

Bill (s)—

It would be impracticable to arrange for the distribution of parent Acts to Members in the case of every Amending——. But Government will place in the Library of the Legislature Secretariat 25 copies of all State Acts, and also set up a library in each Guest House containing one or two sets of all the State Laws. The Government will print as annexures to Amending Bills such of the Sections of the Parent Acts which are necessary for a proper understanding of the Bill. 17.

Where a —— which is passed by the Legislative Council is thereafter taken up in this House, the copies of the Bill to be distributed among the Members will not carry any Statement of Objects and Reasons. Only the Bill as finally passed by the Legislative Council will be printed and supplied to the Members. However, in order that the Members may have some idea of the objects underlying the Bill when it was first introduced in the other House, Copies of Bills introduced in one House will be made available to the Members of the other House also. 18.

Cut Motion (s)—

So long as a cut motion is admissible under the rules, it has to be taken up irrespective of which party the member belongs. Further, these cut motions are printed in order of receipt and the Chair has no option but to take up the cut motions in the order in which they appear on the notice paper. These matters are guided by understanding and agreement between the parties or members and the Chair has no voice in the procedure selected, but the Chair will always take note of such agreement and will implement it. While the right to select the subject is left to the Opposition and independent members have no voice in the selection, the independent members do participate in the resulting debate. 1295.

Demands for Additional Grants—

On ——, questions of policy underlying the main demand would be inadmissible and the only points which could be canvassed are those covered by the grant itself, except in certain cases which are well known to Hon'ble Members. 130.

General—

A Mover of a motion can bring an amendment to his own motion. 517.

It is not parliamentary to use the words '*sudda sullu*'. If it is used by the Hon'ble Minister or by the Hon'ble Member, it is unparliamentary. If his statement contains that word, even that statement is unparliamentary. 1085.

It is only when a matter is formally before the House and the House is seized of it, as after a motion has been moved, that the Member who has made the motion can withdraw it only by the leave of the House. Till that stage is reached, a member who has given notice is entitled to withdraw and no permission is necessary for him to withdraw. 1242, 1295-1296.

It will not be considered *sub judice* unless a charge-sheet is filed in the court. 2799.

The constitution or the organisation of the High Court cannot be discussed. 1043.

Privilege Motion—

Speaker's function in ruling on a claim of breach of privilege is limited to deciding the formal question whether the case conforms to the conditions which alone entitle it to take precedence of the notices of motions and orders of the day standing in the order paper of public business and does not extend to deciding the question of substance, whether a breach of privilege has in fact been committed—a question which can only be decided by the House itself.

In view of the categorical and definite statement by the Hon'ble Chief Minister that as a matter of fact no copy of the Budget Proposals for 1955-56 was handed over to anybody before 1 P.M. which has not been controverted and

which has to be accepted in accordance with parliamentary usage, the Chair is not prepared to hold that a *prima facie* case of breach of privilege has been made out. 644.

The —— *re*—the Editor's Statement in "Deccan Herald" is ruled out of order on the ground that the Speaker's action cannot be criticised incidentally in debate or upon any form of proceeding except on substantive motion because where provision is made for making a substantive motion admitting of a distinctive vote of the House it. cannot be debated except on such a motion. 1073.

Question(s)—

A Minister who answers for another Minister need not take the permission of the Chair to answer ——, because any Minister can answer any question on behalf of his colleagues. If there are some questions which cannot be answered by a particular Minister, they can be taken up on the next day. 2798.

The right to put ——, and elicit answers is one that is available to every Hon'ble Member of the House and no single member can claim his right to the exclusion of other members. But discretion has been vested in the Presiding Officer to regulate the number of supplementaries that should be permitted on any particular question. In no Legislature, the question hour is extended beyond one hour since the question time cannot eat into the time set apart for other business. The Rules contain several opportunities for raising matters of public importance. Question hour alone can never satisfactorily provide any time to canvass debatable matters. 1352-1353,

Unless a court has taken cognizance of a matter, it would not become 'sub judice' and the prohibition of ——, in Rule 26 (2) (p) would not apply. The filing of a First Information Report or of other steps taken prior to the filing of a charge-sheet or prior to a court taking cognizance of a matter would not make a matter *sub-judice*. 17-18.

Statement(s)—

Additional Questions for the Session. 1218.

Announcement of date, place and manner of election to the House Committee. 1018-1019.

Announcement of result of election to House Committee. 1294.
